

PARKADE GARAGE DOOR SYSTEM

WHEN ENTERING THE PARKADE:

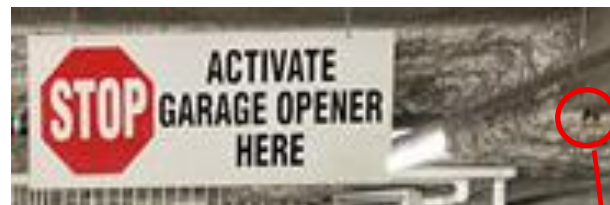

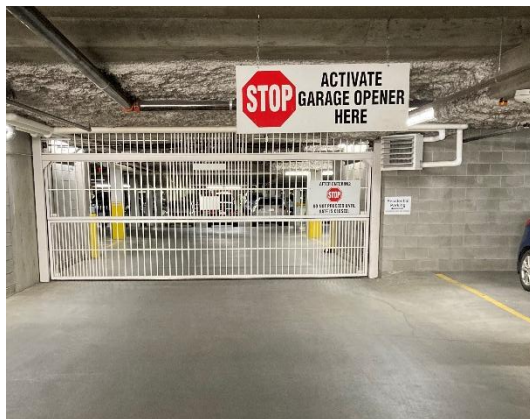

Parkade entry is from Bernard Avenue and down the concrete ramp. Sign indicates the maximum height of a vehicle into the parkade is 6'-4" (no exception).

If the Orange Light is flashing, please wait until it stops flashing and then use your Garage Fob Button #1.

Once you press Fob Button #1 the parkade door will open and when fully open it remains open for about 15 seconds before it closes. If the door is already open when you enter the ramp to the parkade best to be cautious and wait until the garage door closes.

Once inside the parkade you will have to wait at the 2nd gate.

If the Orange Light is flashing, please wait until it stops flashing and then use your Garage Fob Button #2.

WHEN EXITING THE PARKADE:

The parkade traffic is one way and when exiting the overhead gate door next to the car wash it will automatically open.

When you proceed through the above gate you will be at the main parkade garage door which you will have to use Garage Fob #1 to open the door. If the main parkade door is already open best to be cautious and wait until the garage door closes.
